Sub: Complain about reopening of the campus canteen

Respected Principle sir,

I hope this letter find you well. I am waiting on behalf of myself and many fellow students regarding the reopening of the campus canteen.

The canteen has been an essential part of our daily campus life providing not only meals and snacks but also a space for socialization and relaxation between classes. Since its closure many of us have felt the absence of this vital resource, which has affected our campus experience.

We kindly urge the administration to consider the reopening of the canteen as soon as possible. Having access to affordable and nutritious food options is crucial for maintaining our well-being and productivity.

Thank you for your attention to this matter. We look forward to your prompt action and hope to see the canteen operational again soon.

Respected

Principal sir,

Navjivan Science college Dahod,

Sub: Complain about Scholarship issue.

I hope this message finds you well. I am writing to address an urgent issue regarding the pending scholarship application disbursements for many students, including my self.

As we are now well into the Semester, that delay in the scholarship process has created significant financial stress for students who rely on this support to cover other essential expenses. The uncertainty surrounding our funding has made it difficult for us to focus on our studies and fully engage in campus life.

I kindly request an update on the status of the pending scholarships and any information on when we can expect to receive the funds. Clear communication about the timeline and process would greatly alleviate our concerns and help us plan accordingly.

Thank you for your attention to this matter. We appreciate your support and look forward to your prompt response.

Forward to Director  
college campus

To,  
Principal Sir,  
Navjivan Science College, Dahod.

sub:- Application regarding Clean campus and  
Parking space issue.

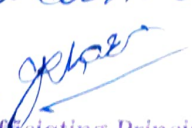

Firstly, the cleanliness of the campus has become a pressing issue. We have noticed an increase in litter and debris in various areas, which not only detracts from the aesthetic appeal of our institution but also poses health risks.

Secondly, the ongoing construction on campus has left saw materials scattered in several areas. This not only restricts movement but also reduces the available space for student parking, making it increasingly challenging for students who commute.

We kindly request that the administration expedite the removal of these materials and allocate specific areas for student parking.

Thank you for your understanding.

Forwarded to Director  
College Campus.
