

NAVJIVAN SCIENCE COLLEGE, DAHOD

Conducted by : Dahod Anaj Mahajan Sarvajanic Education Society, Dahod

Affiliated with Shri Govind Guru University, Godhra

Re-Accredited by NAAC with B grade with a CGPA of 2.31

Accredited "AAA" B Grade With a CGPA of 2.65

Dr. G.J. Kharadi

(Officiating Principal)

M.: 99796 62555

CERTIFICATE COURSE-IN MICROBIOLOGY

Date: 01/01/2025 to 28/02/2025

(30 days, 1hr per Day)

Registration fees Rs. 250/- (Rs. Two Hundred Fifty rupees only)

Maximum intake of Students 50

Registration starts: 21/12/2024 to 31/12/2024

Eligible students: Any student from F. Y. to T. Y. will be preferred

Note: Registration forms will be available from college office from 21/12/2024
OR Registration forms will be available from our college
website www.navjivansciencecollege.com duly filled forms with fees should be
submitted in our college office on or before Dt: 31/12/2024. The detailed
schedule of the course will be declared latter. All the participants will be given
certificate on successfully completion of the course.

For Further Details contact:

Department of Microbiology

Certificate course (2024-25)

Introduction of Bioinformatics

Total Hours: 30 hours

Course background:

Now a day's biology especially in microbiology-biotechnology field is very importantly needed to solve the biological problem by using biological system. For that type of sustainable biological solution students/person needed to know about the fundamental knowledge and most importantly the processes. With this process students will gain vision towards the aim, but in this technological era it's not enough to know only traditional process because it's take long time of period so one need to know the technology which is fast and more accurate. So in this certificate course students will know about the comprehensive knowledge of the field of Bioinformatics which is most needed in the biological system.

By this course student will get fundamental knowledge of this field and can also get practical knowledge so students can use it for future prospective.

Teaching methodology for all units will be:

Unit 1: This unit will introduce definition, branches, biological database of bioinformatics to students

Unit 2: The unit will explain how to retrieve the sequences from databases and how to perform sequence alignment using sequencing alignment tools.

Unit 3: This unit will explain practical approach based on theory

Course schedule:

There will be 1 hour of teaching for 30 days of time period with mutual discussion and understanding of subject.

Eligible Students: Any students from F.Y. to T.Y. will be preferred

Course content: Certificate course 2023-24

Unit 1: Bioinformatics -1

- 1.1 Introduction
- 1.2 Branches of Bioinformatics
- 1.3 Aim of Bioinformatics
- 1.4 Scope and research area of Bioinformatics

Unit 2: Bioinformatics -2

- 2.1 Tools for Data Retrieval
- 2.2 Types of alignment
- 2.3 Blast: Variants and BLAST Output Format
- 2.4 FASTA
- 2.5 PDB and protein structure analysis tool

Unit 3: Practical

- 3.1 Sequence retrieval of nucleic acid and protein
- 3.2 To study the protein structure database (PDB)
- 3.3 Study the sequence based analysis by BLAST and MSA
- 3.4 Study the protein structure by using bioinformatics tool

Recommended Learning Resources:

- Ghosh, Z. and Mallick B. (2009). Bioinformatics: principles and Applications, 1st edition, Oxford University
- Xiong J. (2006). Essential Bioinformatics, 1st Ed., Cambridge University press
