CERTIFICATE COURSE IN CHEMISTRY

SOAP

Date: 15/01/2025 to 15/02/2025

(30 days, 1hr per Day)

Registration fees Rs. 50/- (Rs. Fifty only)

Maximum intake of Students 120

Registration starts: 07/01/202 to 13/01/2025

Eligible students: Any student from F. Y. to T. Y. will be preferred

Note: Registration forms will be available from college office from 07/01/2025
OR Registration forms will be available from our college
website www.navjivansciencecollege.com duly filled forms with fees should be
submitted in our college office on or before Date: 13/01/2025. The detailed
schedule of the course will be declared latter. All the participants will be given
certificate on successfully completion of the course.

NAVJIVAN SCIENCE COLLEGE,

DEPARTMENT OF CHEMISTRY

Certificate course 2024-2025

"Soap"

Introduction

The "SOAP" certificate course is designed to provide participants with in-depth knowledge and practical skills related to the use and manufacturing of SOAP in industry. This report includes the course background, schedule, venue, and duration, providing a comprehensive overview of what participants can expect.

Course Background: Manufacturing of Soap

The "Manufacturing of Soap" certificate course is meticulously designed to address the growing demand for skilled professionals in the soap manufacturing industry. Soap, an essential commodity in daily life, has seen a diverse evolution in its types, production methods, and applications. This course aims to provide participants with both theoretical knowledge and practical skills required to excel in the soap manufacturing sector.

Industry Context:

The soap manufacturing industry is a significant segment of the broader chemical and personal care industries. The global soap market has expanded due to increasing hygiene awareness, urbanization, and the demand for specialized soaps such as medicated, organic, and beauty soaps. This growth necessitates a workforce well-versed in modern soap production techniques and industry standards.

Evolution of Soap Manufacturing:

Historically, soap making has transitioned from a craft to a complex industrial process. Traditional methods using natural ingredients have evolved into sophisticated techniques employing a variety of raw materials and chemicals. Understanding this evolution is crucial for modern soap manufacturing, as it encompasses both time-tested practices and innovative advancements.

Objectives of the Course:

- **Comprehensive Knowledge:** To impart detailed knowledge about the chemistry of soap and the various manufacturing processes, including cold process, hot process, and melt-and-pour techniques.
- **Practical Skills:** To provide hands-on training in formulating, producing, and testing different types of soap, ensuring participants can practically apply their learning.

grheda
Officiating Principal
Navjivan Science College,
DAHOD

- **Safety and Compliance:** To educate participants on safety protocols, regulatory requirements, and quality standards in the soap manufacturing industry.
- **Sustainability:** To promote sustainable practices in soap production, including the use of eco-friendly ingredients and waste management techniques.
- **Entrepreneurial Skills:** *To prepare participants for entrepreneurial ventures in soap manufacturing, covering aspects of business development, marketing, and product innovation.

Target Audience:

- **Aspiring Entrepreneurs:** Individuals looking to start their own soap manufacturing business.
- **Industry Professionals:** Workers in the chemical, cosmetics, or personal care industries seeking to upgrade their skills.
- **Students and Graduates:** Individuals from chemistry, and related fields who are interested in a career in soap manufacturing.
- **Hobbyists:** Enthusiasts who wish to deepen their understanding of soap making from a hobbyist to a professional level.

Market Relevance:

The knowledge and skills imparted through this course are highly relevant given the current market trends. There is a rising consumer preference for natural and organic soaps, which requires manufacturers to understand and implement sustainable and innovative production techniques. Additionally, the global health crisis has heightened the importance of personal hygiene, further driving the demand for high-quality soap products.

Conclusion:

The "Manufacturing of Soap" certificate course is strategically designed to equip participants with the necessary expertise to meet industry demands. By bridging the gap between traditional soap-making and modern industrial practices, the course prepares participants to excel in the dynamic and evolving field of soap manufacturing.

Course Schedule

The "Soap" certificate course is structured into modules that cover theoretical knowledge and practical applications. The schedule is designed to provide a balance of lectures, hands-on sessions, and interactive discussions.

Course Schedule:

There will be conduct lectures on Monday to Friday from 01:30 AM To 02:30 PM.

Course Venue

The "SOAP" certificate course is conducted at NAVJIVAN SCIENCE COLLEGE, DAHOD.

ELIGIBLE STUDENTS:

Any students from F.Y. to T.Y. will be preferred.

Course Duration 30 days

Course content: Soap 2023-24

Unit-I Introduction of Soap and detergent.

gphadi
 Officiating Principal
 Navjivan Science College,
 DAHOD

Unit-II requirements for Soap and Detergent.

Unit-III preparation of soap and Detergents

Report of Certificate Course in Chemistry

The course in chemistry was conducted by Navjivan Science College, Dahod, from 11th January to 19th February 2024 in which 66 students from different colleges actively participated. The average duration of the teaching was 1hrs. The course was aimed to clear the fundamental concepts of chemistry that the students skip during their graduation and post-graduation. The objective of the course was to prepare quality.

graduates and post-graduates so that they can meet the requirements of chemical industries and can be benefitted by greater job opportunities offered by the eminent chemical industries of India.

Certificate Course Report: Soap Making and Formulation

Course Overview

Modules and Topics Covered

1. ****Introduction to Soap Making****

- History and evolution of soap making.
- Basic principles of soap chemistry.
- Types of soaps and their characteristics (e.g., bar soap, liquid soap, syndet bars).

2. ****Soap Making Techniques****

- Cold process soap making: step-by-step guide and practical session.
- Hot process soap making: techniques and variations.
- Melt and pour soap making: using pre-made bases for customization.
- Liquid soap making: formulation and saponification.

3. ****Ingredients and Formulation****

- Overview of oils, fats, and lye in soap making.
- Additives for enhancing soap quality: fragrances, colorants, botanicals, and exfoliants.
- Formulating recipes for different skin types and purposes.
- Balancing cleansing, moisturizing, and lathering properties.

[Signature]
Officiating Principal
Navjivan Science College,
DAHOD

4. ****Safety and Regulatory Aspects****

- Essential safety practices in soap making.
- Handling and storage of raw materials.
- Understanding regulations and standards for soap products (e.g., FDA, EU regulations).
- Labeling requirements and ingredient transparency.

5. ****Advanced Soap Making Techniques****

- Swirling and layering techniques for aesthetic appeal.
- Embedding objects and creating decorative soaps.
- Using natural and organic ingredients for specialty soaps.
- Troubleshooting common issues in soap making.

6. ****Packaging, Marketing, and Business Strategies****

- Creative packaging ideas to attract customers.
- Branding and marketing strategies for soap products.
- Setting up a soap making business: legal considerations, pricing, and distribution.
- Case studies of successful soap businesses.

Methodology

Teaching Methods

- ****Lectures****: In-depth sessions covering the theoretical aspects of soap making, formulation, and safety.
- ****Practical Workshops****: Hands-on workshops where participants create their own soaps using different techniques.
- ****Demonstrations****: Live demonstrations of advanced soap making techniques and troubleshooting.
- ****Group Activities****: Collaborative projects to formulate and test unique soap recipes.
- ****Assignments****: Regular assignments to reinforce learning and assess practical skills.
- ****Digital Tools****: Introduction to software for recipe formulation and business management.

Assessment and Certification

gphoeal
Officiating Principal
Navjivan Science College,
DAHOD

Evaluation Methods

- ****Quizzes and Tests****: Periodic assessments to evaluate theoretical knowledge of soap making and formulation.
- ****Practical Exams****: Hands-on examinations where participants demonstrate their soap making skills and creativity.
- ****Project Work****: Final project involving the creation of a unique soap product, including formulation, production, and packaging.
- ****Participation and Attendance****: Active participation in lectures, workshops, and group activities.

Certification

Participants who successfully complete all course requirements, including passing evaluations and submitting the final project, will be awarded a certificate in "Soap Making and Formulation."

Conclusion

Summary

The "Soap Making and Formulation" course provides a thorough education in the art and science of soap making. By combining theoretical knowledge with practical experience, the course equips participants with the skills needed to create high-quality soap products and potentially start their own soap making business.

Future Prospects

Graduates of this course can pursue careers in artisanal soap making, establish small businesses, or enhance their skills for personal projects. The comprehensive knowledge and practical experience gained are also valuable for those interested in natural skincare and cosmetic formulation.

This certificate course report provides a detailed overview of the "Soap Making and Formulation" course, outlining its objectives, structure, methodology, and assessment criteria. It serves as a comprehensive guide for prospective participants and stakeholders interested in understanding the benefits and applications of this educational program.
